

The Worshipful Company of Actuaries

The Actuaries Company invite the FSG: Intergenerational issues from this time of crisis

Guest Speaker: Angus Hanton

12th May 2020 10:00-11:00

The Worshipful Company of Actuaries are delighted to extend an invitation to the liverymen of the Financial Services Group to a virtual event on a current business topic.

The format will be a presentation from a guest speaker, followed by a moderated question and answer session - a fireside chat, without the fire - which will take no longer than an hour.

Our guest for this webinar is Angus Hanton, co-founder of the Intergenerational Foundation who will examine the likely legacy of the current crisis and how this will exacerbate the financial and social challenges faced by our younger generations. You can find out more about the Intergenerational Foundation on their website here: <http://www.if.org.uk/>

[Click here to register through this link.](#)

After registering, you will receive a confirmation email containing information about joining the meeting. We will be using Zoom software so you may find it helpful to set up a free Zoom account and download the app before the day, if you haven't already done so (at zoom.us).

Do watch out for details of further webinars in this series, which we do hope will continue in real life when lockdown ends.

ANGUS HANTON

Angus Hanton, an economist and entrepreneur, became interested in the problems of intergenerational equity several years ago. A baby boomer with teenage children, he has enjoyed many of the unearned advantages of belonging to this cohort. He is acutely aware of the consequent accumulation of debts that are being passed on to younger generations today.
